

Name \_\_\_\_\_ Moon over Manifest by Clare Vanderpool

1-This book has 2 distinct timelines running through its narration. Create 2 distinct timelines representing Abilene's time as well as Jinx's time. Label any major events that occur in the world as well as in their smaller world. Each timeline should contain a minimum of 10 events.

2-In the book, Abilene comes to work for Ms. Sady. What remedies does Ms. Sady advocate for residents of Manifest? Are they actually known to work? What are they used for? List as many as you can find in the book and research what they are used to treat.

3-Mining is the livelihood of Manifest. Research the following types of mining and describe them below:

Underground-

Open surface (pit)-

Placer-

In-situ mining

4-What is being mined in Manifest?

5-Manifest and a lot of the United States is experiencing a drought during the telling of the story. Look up the general conditions of Kansas typically as far as rainfall is concerned for the summer season. What constitutes a drought for Kansas?

6-Fireworks play a prominent role in the story. How did Jinx and Ned make fireworks? What is the history of fireworks? Describe and research.

7-Describe how the different elements in fireworks are used to make different colored fireworks.

8-During the story, the town fakes an epidemic of Spanish Flu. What was Spanish Flu? How did it affect the world during this time? What were the townspeople actually doing?
